Dear Madame President,

Impact of COVID-19 requires special economic measures to be taken, state aid rules to be temporarily relaxed to help European industry, and significant number of Members addressed you with this issue.

However, weakening of our Green Deal ambition and adjusting roadmaps related to crucial legislative tasks and strategies, postponing or temporarily withdrawing these initiatives, should not be among the measures taken.

We urge you to go ahead with the Work Programme and follow the timelines set for presentation and adoption of crucial pieces of work so that we remain on the right path to green, circular and resilient economy.

Sincerely,

Mr Michal Wiezik, MEP
